Lets Connect

## Objective

IBM Certified Data Analyst with hands-on experience in Python (Pandas, NumPy, Matplotlib), SQL, Advanced Excel, and Power BI, including expertise in data scraping/web scraping, data cleaning, data transformation, and exploratory data analysis (EDA). Proficient in statistical analysis, data visualization, and business intelligence reporting to deliver actionable insights, support data-driven decision-making, and enhance organizational performance.

**Interests:** Data Engineering, Data Analysis and Data Science.

## Skills

- **Languages:** Python | SQL
- **Libraries:** BeautifulSoup | Selenium | Pandas | Numpy | Matplotlib | Plotly
- **Tools:** Excel | Power BI | Jupyter Notebook | VS Code | IBM Cognos | Microsoft SQL Server | Git

## Experience

### Mesh Square

Dec 2025-Present

#### Junior Data Scraper

- Automating web scraping with Python, Selenium, and BeautifulSoup to collect and structure high-quality lead data from multiple online sources.
- Cleaning, validating, and organizing scraped contact and company information to support accurate and targeted lead generation for the sales team.

### Al Mustafa Trust

Aug 2025 - Dec 2025

#### Assistant System Engineer

- Guaranteed data accuracy within the healthcare ERP system through rigorous validation checks.
- Enabled reliable reporting and informed decision-making by ensuring high-quality, clean data.

## Projects

### Credit Card Fraud Risk Analysis | [GitHub](#)

#### Power BI

- Designed an interactive Power BI dashboard for Credit Card Fraud Risk Analysis to monitor fraud rate, risk levels, and transaction trends.
- **Tech Stack:** Power BI, DAX, Slicers, KPIs and Interactive Visuals.

### Retail Sales Dashboard | [GitHub](#)

#### Microsoft Excel

- Created an interactive dashboard to analyze, KPI's, sales pattern and customer behavior for clearer business insights.
- **Tech Stack:** MS Excel, Power Query, Power Pivot, DAX Measures, Data Modeling, Pivot Table, Pivot Chart, Slicers.

## Education

### Bachelor of Software Engineering

Bahria University

2023

- Relevant Coursework: Object Oriented Programming (OOP), Database Management Systems (DBMS), Data Mining.

## Certification

### IBM Data Analyst Certification

NAV TTC – EXD

Sep 2025 – Dec 2025

Blended International IT Training Program

- Trained in SQL, Python, Excel and Power BI to build code data analysis and reporting skills.
- Gaining hands-on experience in data cleaning, visualization and analytical problem-solving.
